The green book

Our ecological policy

For several years now, *Le Lac du Causse Campsite* has been taking an ecological approach with the intention to obtain "Le Clef Verte". Currently, we have a large number of different objectives.

- Strengthen the basis of our commitment to maintain a high standard in the way we manage natural resources.
- Share and disseminate our knowledge by proactively transferring our acquired competencies to clients.
- Develop a network of partnerships with local authorities, social actors and producers in order to promote proximity and coherence in our commitment
- Supervising the team in a pleasant way, leaving room for everyone's initiatives and valuing their capabilities
- Put customer satisfaction at the centre of our service by providing safe, rewarding and enjoyable accommodation and activities, without discrimination on the basis of gender, race, disability or otherwise
- Promote our territory, its cultural, heritage, environmental and human richness

With its objectives, the campsite intends to offer its customers a green holiday and, above all, an experience of exchange and a playful awareness of the philosophy of sustainable tourism. During their stay, our guests can take part in on-site activities: composting, discovering the environment through a hike or nature workshops

We are at your disposal for any information, ideas or suggestions...we wish you a pleasant stay and hope you will be convinced of the beauty and attractiveness of our region.

Laurent Crémont,
CEO

Our ecological policy

In the preserved green environment in which the Campsite and Gites du Lac du Causse are located, we cannot do less than make you aware of the protection of the wild fauna and flora.

GREEN AREAS

The maintenance of our parks is done with respect for the surrounding vegetation. It is indeed not impossible that you will find high, wild grass. This is not an oversight of maintenance on our part, but a conscious act that responds to one of our fundamental values, which is to respect the time that nature needs to renew itself according to the seasons... So we don't ask nature to adapt to our guests but rather our guests to respect nature.

GREEN ACTIONS

In the camping & Gites du Causse, we ask you to respect some eco-gestures:

- **Do not throw your cigarette butts on the ground**
- When using the dishwasher and washing machine, use the eco programme
- **Do not run water unnecessarily (cleaning vegetables, brushing teeth, etc.) Please report to us any leakage**
- In the accommodation: always turn off the light in the room you are leaving and the heating.
- Choose to travel by public transport (bus): ask at the reception desk for the timetable of the shuttles that link Lissac to the various neighbouring towns.
- **Avoid food waste, and for that, here are some tips:**
- Try to plan meals in advance during your stay.
- If you have too many products left before you leave: **take the non-perishable groceries with you and propose your neighbours the fresh products!**
- Download mobile applications against food waste like Too Good to Go.
